DECLARATION UNDER 37 C.F.R. § 1.131

I, David D. Faraldo II, declare the following:

1. I am an inventor of the above identified patent application.
2. I have reviewed the application, including the claims of the application, and I have also reviewed a copy of the current claims which are pending (a copy of which is attached as Exhibit A).
3. The declaration made herein is to establish reduction to practice of the invention prior to October 19, 2000, which is the effective filing date of the U.S. Patent Number 7,069,309.
4. The claimed invention was implemented prior to October 19, 2000. Hence, the claimed invention was reduced to practice prior to October 19, 2000.
5. Exhibit B attached herewith is a title page of a Product Requirements Document (PRD) for NOCpulse Internet Operational Support Service, dated August 30, 2000, i.e., prior to October 19, 2000. The PRD is an internal document that describes the NOCpulse service incorporating the Telalert system which is the subject matter of the above identified patent application.

6. Exhibit C attached herewith includes page 10 of the PRD, stating that the Telalert system has been integrated into the NOCpulse service. Page 10 describes the Telalert system that provides the functionality of the presently claimed invention. As stated above, the PRD is dated prior to October 19, 2000.

7. Based on the above description and as is evident from the attached exhibits, the reduction to practice of the subject matter described in the present application was prior to October 19, 2000.

9. I declare, to the best of my knowledge, that all statements made in this document are true, and that all statements made on the information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under § 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the above-identified patent application or any patent issued thereon.
